

## **HGV Grab Driver**

---

### *Job description*

Rogers Civil Engineering Ltd was formed in 2012 and has experienced significant growth to become a multi-disciplined contractor specialising in civil engineering, reinstatement and utilities.

RCE Ltd are looking to recruit an experienced HGV Grab Driver, working on utility projects nationwide.

Competitive rates of pay, overtime, and weekend working available. After successful completion of trial period a company vehicle to commute to the head office will be provided. The company will also issue you with a full set of PPE on induction.

### **Responsibilities:**

- Driving, loading and unloading with the grab
- Carry out backfilling work onsite
- Ensure materials are safely loaded and secure minimising the risk of damage
- Complying with all legislation in line with driving hours and Working Time Directive
- Completing essential paperwork effectively and in a timely manner
- General upkeep of your vehicle, ie washing and greasing up
- Ensure all safe working practices are followed, to maintain the safety of yourself and others, at all times.

### **You will need:**

- Valid Class 2 License
- Current HIAB crane certificate
- Previous relevant working experience of HIAB operations
- Must hold Driver CPC and Digi Tacho
- Preferably experience working in the utilities industry

Job Types: Full-time, Permanent

Salary: £15.00-£20.00 per hour
